## ABOUT US

---

FOUR tile is situated in Morbi, the country's most promising tile manufacturing hub in Saurashtra, Gujarat. We have the adequate plant capacity and know-how to serve any order size, and client specifications in the shortest possible time frame. With easy access to best-quality raw material, labour resource (skilled and semi-skilled), uninterrupted power supply and in close proximity of major sea ports (Mundra and Kandla), we cater to top clients in the international and domestic markets. In terms of quality we are on-par with the best in the international market, whereas on the price parameter, we are a clear winner.

TILES

## THICKNESS

The magnificent collection from 4tile brings you its colossal slab collection in the robust and resilient thickness of 15mm. The thickness facilitates extensive use of the slabs in various applications areas. The thickness is an ideal solution for kitchen tops, countertops, free-standing furniture, and a lot more.

# 3

## FINISH

The versatile and colossal range of 4tile slabs is available in space-enhancing finishes. The fullbody collection is brought to you in mesmerizing finishes of glossy, high gloss, and matt. These finishes are capable of delivering you spaces the way you have envisioned and elevate the design quotient with their ambiance.

# SIZES

To deliver spaces magnificently stunning and inspiring we have crafted three new sizes that are grander than everything else. The 15mm fullbody collection is available in colossal sizes of 800x2400mm, 800x3000mm, and 800x3200mm. These enormous sizes deliver you flawless spaces with very few seams.

# ADVANTAGES

The colossal slabs of the 15mm fullbody collection is a feature-rich collection with a plethora of advantages. These features are ideal for a variety of uses due to their exceptional characteristics.

## Stain Resistant

The slabs resist the majority of stains and allow worry-free usage.

## Scratch Resistant

The slabs resist scratches and abrasion keeping them new for a long.

## Heat Resistant

The slabs can stand heat making them ideal as kitchen tops and for spaces receiving sunlight.

## Uv Resistant

These tiles resist UV rays keeping their color and finish intact.

## Water Proof

The slabs are waterproof with very low water absorption ideal for bath spaces and more.

## Resistant To Chemicals

Contact with chemicals doesn't alter the color of the slabs.

## Prevent Bacterial Growth

Hygienic glaze of the slabs prevents bacterial and other growth on the surface.

## Frost Resistant

These slabs can sustain very low temperatures.

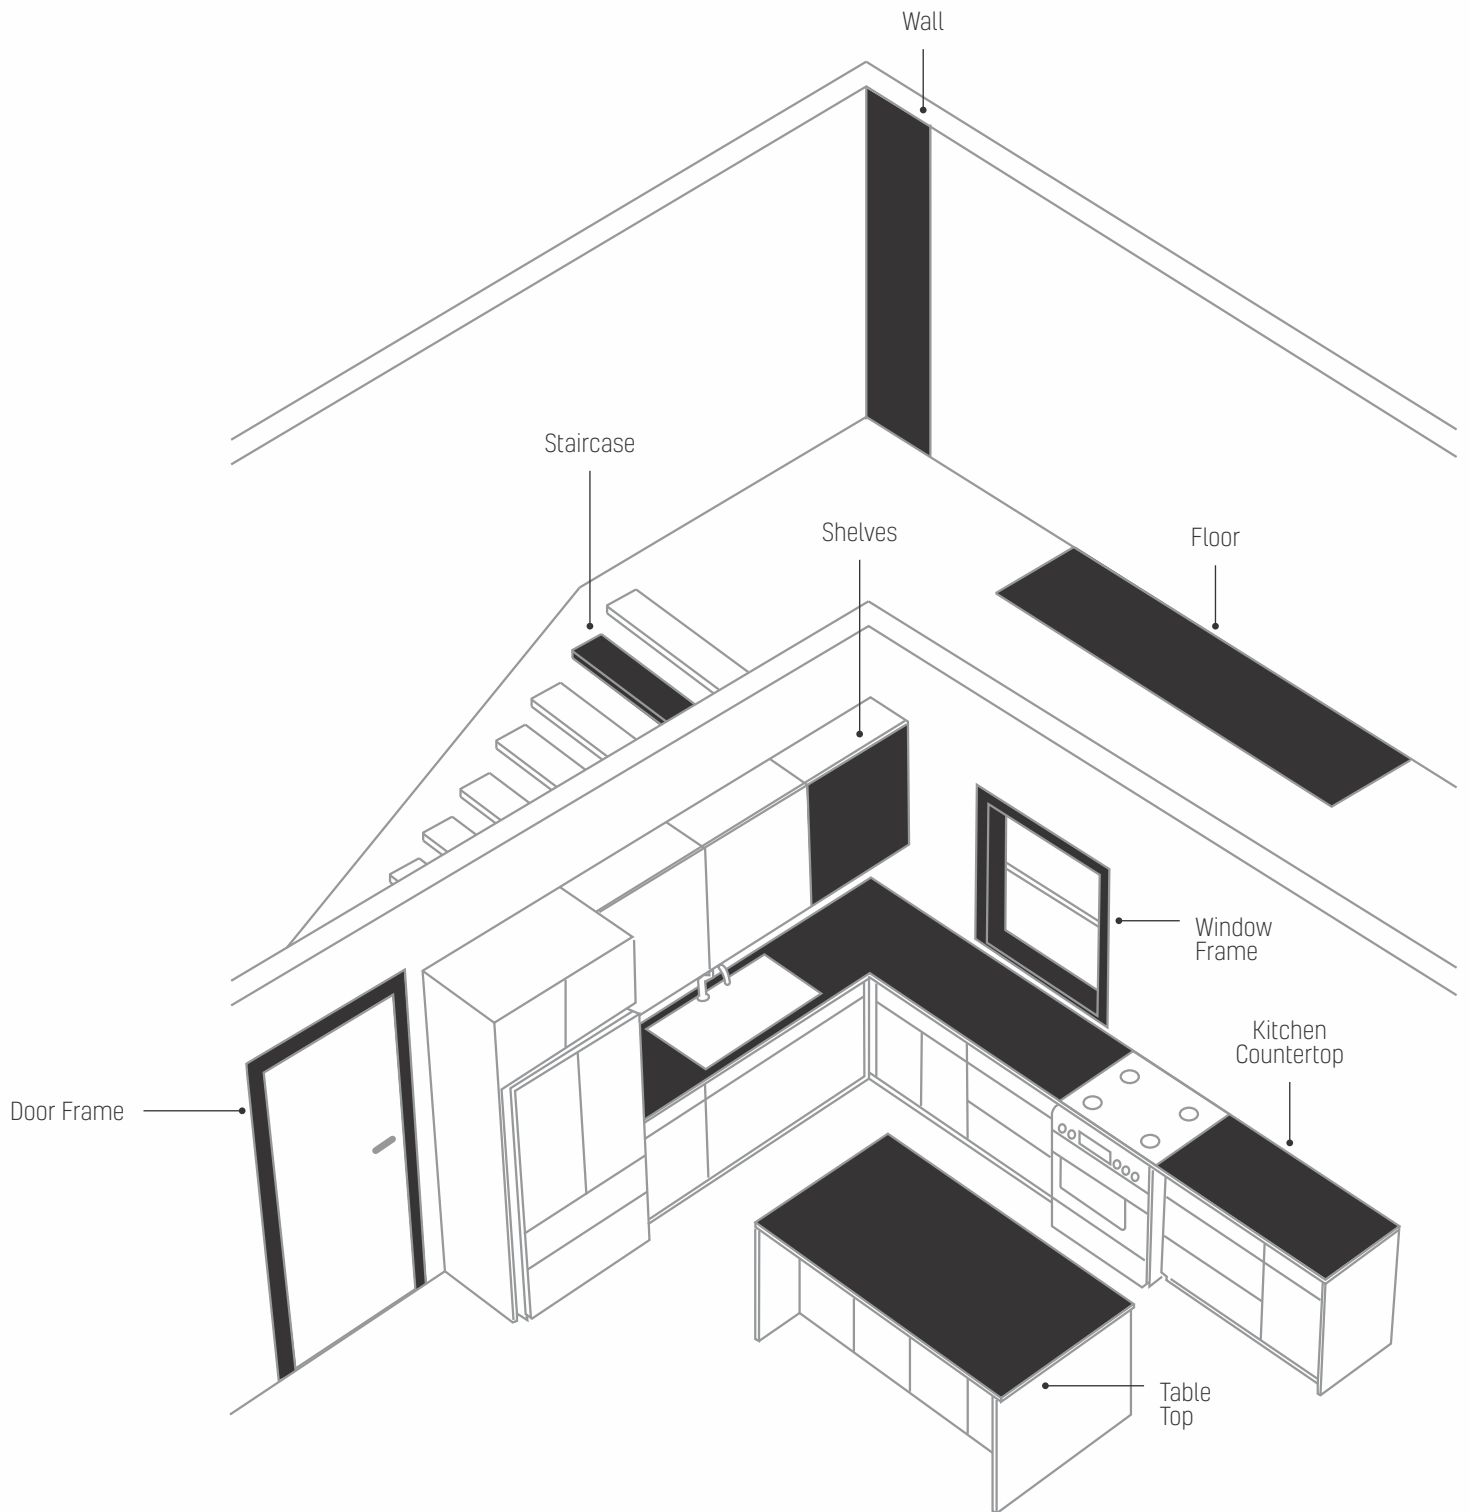

## Easy To Maintain

Built robust and resistant these slabs require no special maintenance.

# APPLICATION AREAS

The versatile and enormous slabs offer versatile application options with a flawless and seamless lay. These tiles are ideal for a plethora of applications ranging from floor to walls, from kitchen tops to tabletops, from washbasins to shower bases, and for a lot more spaces.

Kitchen Countertop

# RESIDENCIAL & COMERCIAL SPACE

Designed and build functional, these colossal tiles are ideal for residential as well as commercial spaces. The versatile application of these slabs can be made to an extreme extent. They can be used in the furniture of homes and offices, in the interior design of offices and homes, in facades and walls of offices and homes, and a lot of many spaces.

## A VERSATILE AND PRACTICAL SOLUTION FOR EVERY SPACE

# KITCHEN COUNTERTOP LAYOUTS

## One Wall

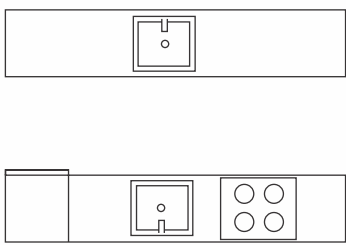

The slabs can be arranged in a continued lay for one wall application of kitchen and other tops.

## L-Shaped

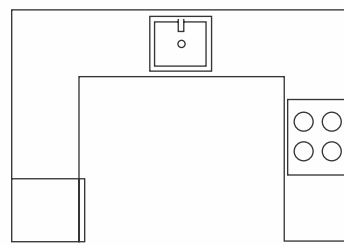

For an L-shaped layout, two slabs can be arranged with a joint at the juncture.

## Galley

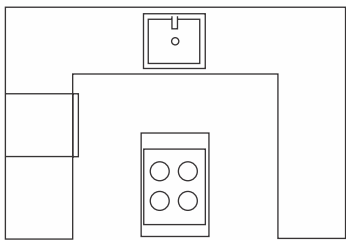

Create a parallel galley layout for a spacious and functional kitchen with two straight layouts.

## E-Shaped

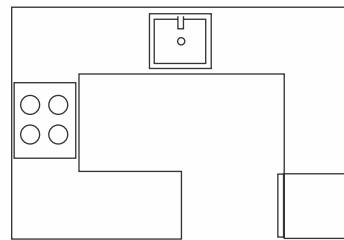

Create a U-shaped kitchen top with two joints at the junctures.

## Island

Create a freestanding island between your kitchen with a single piece of the desired size of the slabs.

## Peninsula

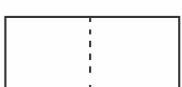

Create a peninsula kitchen countertop with a total of three joints at the junctures.

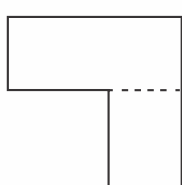

## JOINTS

Following are the joint styles that can be used to create the desired layout of the countertop.
